

P T A ACTIVITIES

Sepulveda

Various first impressions of America and highlights of their trip to the United States were presented before the Sepulveda PTA group on Thursday evening, March 19th, by Christa Volkman and Carl Hoybe, foreign exchange students who have been attending North Torrance High School during the past year.

Since 1947, 769 students from Europe, Pakistan and the Philippines have been sponsored by the American Field Service to this country.

In comparing European schools to ours, Christa mentioned that there are no co-education schools and school is attended six days a week. In the high schools there are no written tests. Most of the grading is judged from oral tests that the teachers give the students.

When asked what impressed her most about America, Christa replied, "The American participation in the preservation of democracy in this country is outstanding. In Austria there is state control of activities and parents do not participate as largely in group activities as they do in America. We do, however, have a democratic form of government."

Christa, who is interested in writing, would like to pursue a career as a journalist when she is through school.

"Out of 100 or 1500 students who apply for an American Field Service Scholarship in Denmark, only 65 Danish students are chosen for this honor," Carl Hoybe of Copenhagen, Denmark, commented in his speech.

Students are carefully screened with scholastic standing, sports participation and home life considered important qualifications for this scholarship. Carl's most outstanding impression of America, he stated, was "The high standard of living in this country."

Mrs. Frank Laine, publicity chairman for the American Field Service Chapter in Torrance, mentioned that the purpose of the foreign exchange student program "is to further world peace." The American Field Service raises \$650 to send one student to America for a year.

Christa and Carl will be sent on a two week bus tour of the United States, staying in private homes along the way, before embarking for Europe this summer.

Banker Gives Advice to Soroptimist

"Trusts are needed as much or more by people in moderate circumstances as by those of great wealth," Ted Madouras told members of the Torrance Gardens Soroptimist Club last Monday at their noon meeting at the Palms.

The speaker, of the Bank of America Harbor Area new business extension and estate planning, pointed out that every dollar that can be saved should be, especially where there are children concerned. He said that a trust means to administer a will and gave several excellent reasons why a bank named as executor is better for all involved than an individual.

He said that due to the complex laws of today, it is a necessity to hire a specialist. Other guests were Dean Sears of the Bank of America and Mrs. Charlotte Rupert, beauty consultant.

President Margaret Neff was in charge of the meeting and the speaker was presented by Frances Dimitri, program chairman.

The club will meet tomorrow evening at the Rolling Hills home of Dorthie Kirkpatrick for a dinner meeting. Frances Stephan will be co-hostesses.

Margaret Neff, president, was honored at the Chamber of Commerce dinner Thursday in recognition of the services performed by the club.

The established craftsmanship of the Natzlers, a Southern California man and wife team, has received very current publicity in newspapers and decorating magazines, and by South Bay art and ceramic enthusiasts. These arti-

cles from Japan to Chicago to London who have greeted the Natzler ceramics with highest praise for "the individual excellence and perfect integration of material, shape, color, and texture, making each piece a work of art while displays a fineness unmatched in the contemporary ceramic art field."
